One Coat Renders

Colour Shade Guide

EuroMix Dry Mortar System

EuroMix One Coat Renders offer an attractive, weather resistant decorative finish and may be hand or spray applied to suitably prepared substrates of blockwork, brickwork or concrete. A textured finish is achieved by scraping the render after application and the surface may be polished to give a rough stone effect. Ashlar cuts can also be formed.

The product is manufactured by CPI and complies with UK and Irish Building Regulations when used in accordance with provisions of BBA Agrément Certificate No 03/3997. Application must be carried out by an experienced rendering contractor, strictly in accordance with instructions provided. EuroMix One Coat Renders can be delivered in pre-packed 25kg bags, in 1 tonne sacks or in silos.
