CPI Mortars Ltd

CPI Mortars Limited is committed to reducing the potential environmental impact of its activities. As part of this commitment to maintaining the highest level of environmental management, the company operates a fully documented Environmental Management System

Through this system, the company will proactively:

- Ensure compliance with statutory legislation and as a matter of best practice, the requirements set out within Approved Codes of Practice relating to its industry and activities
- Shall actively promote an open culture within its organisation to encourage an awareness of the natural environment and the need to respect the local surroundings for the betterment of the community and the built environment
- Seek to employ the best available technologies and techniques to minimise the impact on the environment and promote continually improving performance.
- Will establish its own standards and targets where no relevant Government regulation exists to ensure continuous improvement of its Environmental Management System
- Will measure progress against set targets for resource efficiency and pollution reduction
- Ensure that it dedicates sufficient resource for the implementation of the policy and that environmental issues are given adequate consideration in the planning and day-to-day activities

CPI Mortars Limited proactively supports the principle of sustainable development and The Code for Sustainable Homes.

The Chief Executive will have overall responsibility for all environmental matters. The operation of this policy and the associated procedures will be monitored and reviewed on a regular basis to ensure that they remain current and applicable to the activities of CPI Mortars Limited. This policy has been endorsed by the board of directors who give their full support to the implementation of this policy.

Chief Executive
